Safe Fleet

Safe Fleet is a modular platform for integrated fleet and human resources management. Each module can be activated separately, ensuring flexibility, efficiency, and scalability.

Your fleet management, smarter.

Powered by AYNIX SRL.

Problem

Drivers and administrators waste time with paperwork and inefficient communications.

Low fleet **traceability**

Manual control of **attendance** and **permits**

**Expired documents** = fines and blockages

Slow administrative **support**

SafeFleet

Solution
(introduction to the modules)

### Solution: integrated modular platform

Module 1 – Proactive document management

**Module 2** – Digital attendance

Module 3 – Digital Fleet Inventory

Module 4 – AI Assistant (Chatbot) (optional upon client request)

SafeFleet

Everything in a single synchronized environment, accessible from web and mobile.

Proactive document management
Module 1

Digital archive of all HR and fleet documents.

"Documents about to expire" section with automatic alerts.

Notifications by email or WhatsApp to the person in charge.

Version history and certifications.
→ Benefit: reduces the risk of non-compliance and improves operational planning.
SafeFleet

Digital attendance
## Module 2

Expanded and reinforced

- ⊘ **Digital check-in / check-out** registration (app, QR or GPS).
- ⊘ **Automatic calculation** of hours worked, overtime, holidays, and absences.
- ⊘ **Analytical dashboard** by team, vehicle, or project.
- ⊘ **Synchronization** with corporate calendar and HR modules.
- ⊘ **Automatic export** of reports (Excel / ERP API).
- ⊘ **Automatic alerts** for absences or irregularities.
  - → Benefit: reduces administrative bureaucracy and increases accuracy and transparency in personnel costs.

SafeFleet

Digital Fleet Inventory

Module 3

Complete management of each vehicle with technical data, contracts, and maintenance.

Tracking of expirations (insurance, inspections, reviews).

Analysis of vehicle costs, usage, and availability.

Direct connection with the Documents and Attendance modules.
→ Benefit: a single source of truth for operational and administrative decisions.

SafeFleet
AI Assistant – Chatbot

Module 4

Optional module, integrable upon client request.

Conversational interface (WhatsApp, Telegram, Microsoft Teams).

Immediate access to HR and fleet data.

Proactive notifications about expirations, permits, maintenance.

Driver support: vacation requests, incident reports, alerts.

Customization by language, sector, and workflow.
→ Benefit: optimizes administrative processes and improves communication between the office and drivers.
SafeFleet

How does it work?

**Safe Fleet operates as an integrated management platform (All-in-One):**

⊘ **Main Dashboard:** overview of users, vehicles, and attendance.

⊘ **Attendance:** daily control with charts and filters.

⊘ **Users:** creation, editing, and staff roles.

⊘ **Vehicles:** fleet registration and control.

⊘ **Calendar:** monthly/annual planning, Excel export.
SafeFleet

Main benefits

- ⊘ **Administrative time savings.**

- ⊘ **Guaranteed compliance** (automated alerts and expirations).

- ⊘ **Unified data** for faster decisions.

- ⊘ **Better employee experience** and greater transparency.

SafeFleet

Personalized plans according to your needs

Every company has different needs. Therefore, Safe Fleet offers flexible and adaptable solutions based on your fleet size, the required modules, and the level of support you need.

Contact us:

One of our technicians will be available to analyze your case and propose the most suitable plan in terms of functionality, scalability, and costs.

**No hidden costs. Only what you need, when you need it.**

SafeFleet

Conclusion

Safe Fleet – Modular. Scalable. Smart.

Each company can activate the most suitable modules
for their needs and expand the platform
